

## Public Notice

It should be known that, before this Instituto Superior Técnico, University of Lisbon (hereinafter referred to as IST), and within 30 working days following the day after the publication of this notice in "Diário da República" (the Portuguese Official Gazette), an international documental recruitment competition is open, in the form of an employment contract in public functions, of one Full Professor, in the disciplinary field of Systems Engineering and Management of the Department of Engineering and Management of Instituto Superior Técnico, University of Lisbon, under articles 37.o to 51.o, 61.o and 62.o-A of the Estatuto da Carreira Docente Universitária (University Teaching Career Statute), republished by Decree-Law n.o 205/2009, from August 31<sup>st</sup> (hereinafter referred to as ECDU), and other applicable law, namely the Regulamento Geral de Concursos para recrutamento de professores catedráticos, associados e auxiliares da Universidade de Lisboa (General Regulations for the Recruitment of Full Professors, Associate Professors and Assistant Professors of the University of Lisbon), approved by the Rector Order of February 16<sup>th</sup> 2015, published in the 2nd Series of Diário da República n.º 45, the joint order n.º 2307/2015 of March 5<sup>th</sup>, 2015 (hereinafter referred to as Regulations).

The joint order n.o 373/2000, of March 31<sup>st</sup>, of the Minister of State Reform and Public Administration and the Minister for Equality made compulsory the inclusion of the following reference in all civil service recruitment procedure notices: "In compliance with paragraph h) of article 9 of the Constitution, the Public Administration, as the employing entity, actively promotes a policy of equality of opportunities between men and women in access to employment and professional development, scrupulously providing for the prevention of any type of discrimination." In this sense, the terms 'candidate', 'recruited', 'teacher' and the like are not used in this notice to refer to the gender of people.

Likewise, no candidate may be privileged, benefited, harmed or deprived of any right or exempt from any duty on the grounds, in particular, of descent, age, sexual orientation, marital status, family situation, economic status, education, origin or social status, genetic heritage, reduced working capacity, disability, chronic illness, nationality, ethnic origin or race, territory of origin, language, religion, political or ideological beliefs and trade union membership.

In compliance with articles 37.o to 51.o from ECDU and other applicable law, and with article 8.o from the General Regulations for the Recruitment of Full Professors, Associate Professors and Assistant Professors of the University of Lisbon, the following terms and conditions must hold:

### **I — Rector's Order Authorization**

The opening of this recruitment procedure follows the University of Lisbon Rector's Order, dated June 2<sup>nd</sup>, 2026, issued after the confirmation of budget provision and

after the confirmation that the position, for which this recruitment procedure is open, is foreseen in the IST staff list, in which the functions to be carried out are defined as teaching and research activities that constitute the set of duties of Full Professor in the Department of Engineering and Management.

## **II – Place of work**

Instituto Superior Técnico,  
Campus da Alameda, Av. Rovisco Pais, 1  
1049-001 Lisboa, Portugal,  
and  
Campus Taguspark,  
Av. Prof. Dr. Aníbal Cavaco Silva  
2744-016 Porto Salvo, Portugal

## **III – Admission requirements and grounds of exclusion**

III.1 - In compliance with article 40.º, only those who hold a Doctorate degree awarded more than five years ago and hold the title of Aggregate may be admitted to this competition.

III.2 – Chapter VI of the Regulations shall be applied in respect to the confirmation and fulfilment of the admission requirements and ground of exclusion of the candidates.

III.3 — The holders of a doctorate degree awarded by a foreign institution must demonstrate that the degree has been recognised according to the Decree-Law n.º 66/2018, from August 16<sup>th</sup>, as currently worded.

III.4 — The recognition of the doctorate degree, referred above, must be obtained before the deadline to sign the contract in case the candidate ranked in an eligible place has been awarded the doctorate degree by a foreign institution.

III.5 — The non-delivery of any document that supports the candidacy, in the stated deadline, determines the non-admission of the candidacy, which will be reviewed and decided by the President of Instituto Superior Técnico to taking a final decision on the merit.

## **IV – Absolute merit approval requirements**

IV.1 – Article 10.o from Chapter III of the Regulations shall be applied in respect to the absolute merit approval of the candidates.

IV.2 - The Jury will deliberate on the approval or rejection on absolute merit of a given candidate, through justified nominal voting, abstentions not being allowed.

IV.3 - It is considered approved in absolute merit the candidate that receives a favorable vote from more than half of the voting members of the Jury.

IV.4 – A vote against the approval in absolute merit of a candidate must necessarily be based on one or more of the following circumstances:

- a) the knowledge domain and/or field of the PhD which the candidate holds is not academically adequate for the, minimally adequate, performance of the teaching duties in the disciplinary field related to this recruitment procedure and the candidate's academic background fail to compensate for this fact; and/or
- b) the relevance, quality, and timeliness of the curriculum vitae of the candidate prove to be clearly insufficient for the minimally adequate performance of the duties of Full Professor in the disciplinary field of the competition; and/or
- c) the most relevant contributions from the past 10 years mentioned in paragraph b) of point IX.2 of this notice, which are considered by the candidate as the most representative with regard to their contribution to the development and evolution of the disciplinary field covered by the competition, fail to demonstrate that the candidate possesses the necessary ability for the minimally adequate performance of the duties of Full Professor in the disciplinary field of the competition; and/or
- d) the candidate has not published, in the last 10 years, at least 5 publications classified as Q1 of impact factor in the areas of the "Clarivate Analytics Web of Science" relevant to the disciplinary field of the competition; or 10 (ten) publications listed in the "Clarivate Analytics Web of Science" in the relevant areas and simultaneously classified as Q1 in the "Scopus" in one of the relevant categories. The Q1 classification can be obtained for any of the years 2023, 2024 or 2025. The relevant areas of the "Clarivate Analytics Web of Science" are: "Operations Research & Management Science"; "Computer Science, Information Systems"; "Health Policy & Services"; "Management"; "Industrial Engineering"; e "Green & Sustainable Science & Technology". The relevant categories of "Scopus"(based on the Cite Score Rank) are: "Decision Sciences" and within this the sub-categories of "Management Science and Operations Research", or "Information Systems and Management", or "Statistics, Probability and Uncertainty"; "Mathematics" and within this the sub-categories of "Control and Optimization" or "Modeling and Simulation"; e "Medicine" and within this the sub-category of "Health Policy". The accepted publications are considered if they are available on-line and have a DOI (Digital Object Identifier); and/or
- e) the scientific and pedagogical project, requested in IX.2.c) and elaborated by the candidate is clearly insufficient, presenting insufficiencies or severe incorrectness enough to illustrate the lack of capacities of the candidate to fulfil the set of functional duties required by Full Professor in the disciplinary field of this recruitment procedure, or not being supported by previous work from the candidate.

IV.5 - Notwithstanding the provisions of point IV.4, candidates may be approved on absolute merit even if some of the circumstances indicated are met, provided that these are deemed to be compensated for by the curriculum submitted.

## **V – Evaluation parameters and relative merit ranking, respective percentage and final valuation**

V.1 - This recruitment procedure aims to evaluate the candidates' abilities and performance concerning the different aspects that constitute the set of duties to be performed, in accordance with article 4.o of ECDU, as a result of their recruitment in case they are hired. According to article 4.o of ECDU, faculty members are required to:

- a) Carry out scientific research, cultural creation or technology development activities;
- b) Carry out the teaching duties assigned to them and guide and supervise the students;
- c) Participate in activities related to university representation, scientific disclosure and economic and social knowledge transfer;
- d) Participate in management activities within the university;
- e) Participate in other duties assigned by the competent bodies in the scope of the regular activities of a faculty member.

V.2 - The selection will be made through the curriculum's evaluation method, which, according to the faculty members' general duties established in article 4.o of ECDU, is based on the following items:

- a) Teaching;
- b) Research;
- c) Activities related to university representation, scientific disclosure and economic and social knowledge transfer, herewith defined as Knowledge Transfer;
- d) Management activities within the university;
- e) Scientific and pedagogical project.

The subjects indicated in sub-paragraphs c) and d) must be considered within the scope of sub-paragraph c) according to the mentioned in no. 6 of article 50.o of the ECDU, relating to other activities relevant to the mission of the IES.

V.3 - The candidates' curriculum evaluation in each of the aforementioned areas must take into consideration the disciplinary field related to this recruitment procedure.

V.4 - The parameters to be considered in the candidates' curriculum evaluation in each of the areas defined in V.2, and the respective percentage for the final classification, are the following where special emphasis is given to the relevance, quality and impact of the curriculum vitae of the candidate, to the most relevant and with the highest impact academic contributions as selected by the candidate and identified in the document IX.2.b, in the last 10 years:

- a) Teaching (30%):
  - i) Pedagogical material: parameter related to publications, computer applications and pedagogically relevant experimental prototypes developed, solely or in cooperation, by the candidate, considering their nature and impact on the national and international communities;
  - ii) Teaching activity: parameter related to the curricular units coordinated or taught by the candidate, considering their diversity, pedagogical practice and the student range;
  - iii) Innovation: parameter related to the candidate's ability to promote pedagogical activities, such as:
    - presentation of grounded and coherent proposals for the creation of new curricular units or for the substantial reformulation of existing ones;
    - creation or reinforcement of experimental and/or computational laboratory infrastructures used for teaching purposes;
    - creation or restructuring of groups of curricular units or curricula;

- improvement of pedagogical practices;
  - iv) Student guidance and supervision: parameter related to the supervision of PhD, MSc and Undergraduate students' works considering the number, quality, scope and scientific/technological impact of the resulting publications, theses, dissertations and final- year projects, specially the prizes awarded to these works and their international relevance;
  - v) Non-academic Professional experience: parameter related to the role of relevant work developed outside of the academic environment in the scope of the disciplinary field of this competition.
- b) Research (40%):
- i) Scientific publications: parameter related to books, book chapters, papers published in scientific journals and in international conferences proceedings, of which the candidate is author or co-author, considering:
    - their nature;
    - the impact factor;
    - the number of citations;
    - the technological level;
    - the innovation;
    - the diversity;
    - the multidisciplinaryity;
    - the international collaboration;
    - the relevance of the contributions towards the improvement of the state of the art;
    - the relevance of the works selected by the candidate as the most representative of their contribution towards the development and improvement of the disciplinary field related to this recruitment procedure.
  - ii) Coordination of and participation in scientific projects: parameter related to the participation in and coordination of scientific projects, subject to competitive tendering, by the candidate, considering:
    - the territorial scope;
    - the size;
    - the technological level;
    - the relevance of the contributions;
    - the innovation;
    - the diversity.
  - iii) Creation and reinforcement of laboratory infrastructures: parameter related to the participation in and coordination of activities by the candidate that resulted in the creation or reinforcement of experimental and/or computational laboratory infrastructures used for research purposes;
  - iv) Scientific activity development: parameter related to the demonstrated ability of the candidate to coordinate and lead research teams;
  - v) Recognition by the international scientific community: parameter related to:
    - prizes awarded by scientific societies;
    - editorial activities in international journals;
    - participation in editorial committees of international journals;
    - coordination of and participation in programme committees of scientific events;
    - participation as invited speaker in scientific workshops or at universities;
    - participation as a member of scientific societies with competitive admission and other similar distinctions.

- c) Knowledge Transfer (5%)
- i) Industrial Property: parameter related to the authorship and co- authorship of patents, models and industrial designs, considering their nature, territorial scope, technological level and the results achieved;
  - ii) Legislation and technical norms: parameter related to the participation in and elaboration of bills and norms considering their nature, territorial scope and technological level;
  - iii) Scientific and technological disclosure publications: parameter related to papers published in national journals and conferences and other scientific and technological disclosure publications, according to their professional and social impact;
  - iv) Rendering of services and consulting: parameter related to the participation in activities involving the business environment and the public sector, considering the type of participation, the dimension, the diversity, the technological intensity and the innovation;
  - v) Conception, planning and production of engineering, management or architectural projects: parameter related to the value of professional experiences relevant to the university's activities;
  - vi) Services provided to the scientific community and to society: parameter related to the participation in and coordination of activities involving scientific and technological disclosure considering their nature and the results achieved, namely aimed at:
    - the scientific community, specially through the organization of congresses and conferences;
    - the media;
    - businesses and the public sector.
  - vii) Professional training programs: parameter related to the participation in and coordination of technological training programs aimed at businesses and the public sector, considering their nature, technological intensity and the results achieved.
- d) Management activities within the university (15%):
- i) Participation in universities or schools' bodies: parameter related to the nature and the responsibility resulting from the duties;
  - ii) Participation in the management of units or as course coordinator: parameter related to the duties, the scope of action and the results achieved by the candidate in the performance of management duties within departments and research units, coordination of courses, scientific areas or sections;
  - iii) Temporary duties and tasks: parameter related to the nature, the scope of action and the results achieved by the candidate within their participation in editorial activities for international journals, in the evaluation of scientific programs, in academic degrees' examination boards, in competition juries, and their performance of temporary duties and tasks assigned by the competent bodies, among others;
  - iv) Other duties: parameter related to the performance of duties defined in article 73.o of the University Teaching Career Statutes (ECDU) and other duties within national and international scientific organizations.
- e) Scientific and Pedagogical Project (10%): parameter that takes into account the scientific-pedagogical project that the candidate proposes to develop in the disciplinary field for which the competition is open.

V.5 – Once finally identified the candidates approved in absolute merit, based on the previous conditions expressed in IV, the Jury will proceed to the final valuation and ranking of the candidates, following the procedure established in article 20.o of the Regulations, where the preferential parameters described in VI can be used as qualification criteria for each of the parameters described in V.4 when establishing the list mentioned in no. 3 of article 20.o of the Regulations.

## **VI – Preferential parameters**

A preferential parameter is the alignment of the curriculum vitae with the disciplinary field of the competition, with special emphasis on the candidate's scientific production over the past 10 years, with a focus on with a focus on Operations Management, Logistics and Supply Chain Management, and valorization of the potential contribution to the development and evolution of the disciplinary field within this scope.

## **VII - Public hearings**

VII.1 - At the first meeting the Jury will deliberate about the need for a public hearing of the candidates that have been approved in absolute merit, with the exclusive aim of clarifying the information contained in the documents submitted by candidates, according to paragraph b), no. 4, article 50.o of the ECDU.

VII.2 - If the Jury decides to hold the aforementioned public hearings, those will have to take place between the 20<sup>th</sup> day and the 50<sup>th</sup> day following the date of admission on absolute merit of the candidates, and all candidates will be informed of the date and place of the public hearings at least five days in advance.

VII.3 - The aforementioned public hearings can be done by videoconference, and the Jury must guarantee that they are done in equal circumstances to all candidates.

VII.4 - The Jury may also decide to request additional documents, in compliance with paragraph a), n.o 4, article 50.o of ECDU, with the aim of clarifying the information contained in the curriculum vitae of a given candidate.

## **VIII – Submission of applications**

VIII.1 - Applications must be submitted until the 30th working day from the date of publication of this notice in the Diário da República.

VIII.2 - The application documents must be submitted to the particular electronic address related to this public notice provided at the Human Resources of IST web page:

<http://drh.tecnico.ulisboa.pt/job-opportunities/>

VIII.3 - The non-delivery of any document that supports the candidacy, in the stated deadline, determines the non-admission of the candidacy, which will be reviewed and decided by the President of Instituto Superior Técnico to taking a final decision on the merit.

## **IX – Application Supporting Documents**

IX.1 - The application must be accompanied by their respective application form that can be found at the Human Resources of IST web page:

<http://drh.tecnico.ulisboa.pt/job-opportunities/>

where it should be explicitly referred the candidate's agreement that all communications and notifications in the scope of this competition must be made through the specific electronic mail address indicated by the candidate.

IX.2 - The application must be accompanied by the following documents:

- a) Document in PDF format with the candidate's curriculum vitae that should include:
- i) the teaching, research, knowledge transfer and management activities within the university that are relevant for this competition, identifying the activities developed in the scope of the different aspects that, according to article 4.o of ECDU, constitute the set of duties to be performed by Full Professor, in accordance with the evaluation parameters and criteria mentioned in V.4 of this notice and which are considered relevant to the disciplinary field of this recruitment procedure; the candidate should structure the curriculum vitae such that it enables an easy and complete identification of its own contribution to the items listed in V.4, demonstrating the fulfillment of the quantitative criteria listed in IV.4.
  - ii) Indication of the Google Scholar/Scopus/ResearcherID that allows identifying the list of publications, the respective number of citations, and the H-index according to the source Clarivate Analytics Web of Science.
- b) Document with up to 10 of the most relevant academic contributions over the last 10 years, presented in accordance with the rules found in: <http://drh.tecnico.ulisboa.pt/job-opportunities>.
- c) Document in PDF format with the scientific and pedagogical project proposed by the candidate on the disciplinary field to this recruitment procedure, according to paragraph e) from V.4 of this notice, presented in accordance with the rules found in: <http://drh.tecnico.ulisboa.pt/job-opportunities>.
- d) Letters of reference that attest to the suitability and merit of the candidate to perform the functions for which he or she is applying, up to a maximum of three, submitted by individuals representing the international scientific community in the disciplinary field of the competition, presented in accordance with the regulatory standards found at: <http://drh.tecnico.ulisboa.pt/job-opportunities>
- e) PDF version of all scientific publications mentioned in the document described on the above paragraph b) from IX.2 of this notice.
- f) Other works that the candidate might consider relevant for the Jury to evaluate.

IX.3. The candidates should testify on a declaration on honour the fulfillment of the legal requirements for admission to this recruitment procedure, in the Admissions platform.

## **X – Language**

All documents that accompany the application must be presented in Portuguese or in English.

## **XI – Composition of the Jury**

According to ECDU (articles 45.º and 46.º) and the "Regulamento" (article 14.o), the jury is composed of the following members:

President: President of Instituto Superior Técnico, Professor Doutor Rogério Anacleto Cordeiro Colaço, by delegation of powers from the Rector, with the option of sub-delegation, under the terms set out in Order No. 912/2023, of January 18.

Juror:

- Doutor Carlos Alberto Hengeller de Carvalho Antunes, Professor Catedrático, Faculdade de Ciências e Tecnologia, Universidade de Coimbra.
- Doutor José Fernando da Costa Oliveira, Professor Catedrático, Faculdade de Engenharia, Universidade do Porto.

- Doutora Dalila Benedita Machado Martins Fontes, Professora Catedrática, Faculdade de Economia, Universidade do Porto.
- Doctor Virgílio António Cruz Machado, Professor Catedrático, Faculdade de Ciências e Tecnologia/NOVA School of Science and Technology, Universidade Nova de Lisboa.
- Doctor Ana Paula Ferreira Dias Barbosa Póvoa, Professora Catedrática, Instituto Superior Técnico, Universidade de Lisboa.
- Docteur José Rui de Matos Figueira, Professor Catedrático, Instituto Superior Técnico, Universidade de Lisboa.
- Doutora Mónica Duarte Correia de Oliveira, Professora Catedrática, Instituto Superior Técnico, Universidade de Lisboa.

Instituto Superior Técnico, July 10<sup>th</sup>, 2026, The President, Professor Doctor Rogério Anacleto Cordeiro Colaço
